

I-69 Evansville to Indianapolis Tier 2 Studies

NOTICE of ENTRY for SURVEY or INVESTIGATION
June 17, 2004

RE: I-69 Environmental Impact Statement, Tier 2 Section 1
Gibson, Vanderburgh, and Warrick Counties, Indiana

Dear Sir or Madam:

Our information indicates that you own property within the vicinity of Alternative 3C, the route for I-69 approved by the Federal Highway Administration (Evansville to Indianapolis). Representatives from Qk4, under contract with the Indiana Department of Transportation (INDOT) as well as other representatives of INDOT, may be conducting surveys and investigations of the project area in the near future. It may be necessary for them to enter onto your property. This is permitted by law under Indiana Code IC 8-23-7-26. Field personnel performing this type of work have been instructed to identify themselves to you, if you are available, before they enter your property. If you no longer own this property or it is currently occupied by someone else, please let us know the name of the new owner or occupant so that we may contact them.

The work may include, but is not limited to, studies in the following categories: biological, geological, topographical, wetland and karst (may include dye tracing), historical and archaeological, noise, hazardous waste, socioeconomic, and possibly other investigations. The information we obtain from such studies is necessary for the proper planning and design of this highway project. It is our sincere desire to cause you as little inconvenience as possible during this survey.

At this stage of the project, we generally do not know what effect, if any, our project may eventually have on your individual property. If we determine later that your property is involved, we will contact you with additional information. This Notice of Survey does not involve any taking, purchasing or evaluating of property to be acquired for right-of-way purposes. At this time, it is anticipated the study in your area may be completed within 36 months. This Notice of Survey serves for survey and study purposes only.

If you should have any questions or comments, please call Roger Wade from Qk4 at 1-800-589-2922. By way of this Notice of Survey letter, we are extending a warm welcome to visit our office in Oakland City, Indiana. It is located at Oakland City University, Stinson Hall, 139 Lucretia Street, Oakland City, Indiana 47660. We look forward to working with you on this project. Thank you.

Sincerely,
Qk4

Roger J. Wade, PE, PLS
