Evansville to Indianapolis, Indiana

Tier 1

Environmental Impact Statement

&

Section 4(f) Evaluation

Volume I

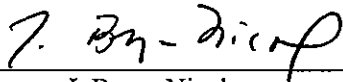

December, 2003

*I-69 Evansville to Indianapolis
Final Environmental Impact Statement*

I-69
Evansville to Indianapolis, Indiana

TIER 1
FINAL ENVIRONMENTAL IMPACT STATEMENT & SECTION 4(f) EVALUATION
U.S. DEPARTMENT OF TRANSPORTATION
FEDERAL HIGHWAY ADMINISTRATION
AND
INDIANA DEPARTMENT OF TRANSPORTATION
Submitted Pursuant to 42 U.S.C. 4332(2)(c), 49 U.S.C. 303(c)

J. Bryan Nicol
Commissioner
Indiana Department of Transportation

Kathleen H. Quinn
Acting Indiana Division Administrator
Federal Highway Administration

December 5, 2003

The following persons may be contacted for additional information concerning this document.

Janice Osadczuk, Chief
Division of Environment, Planning & Engineering
Indiana Department of Transportation
100 North Senate Avenue, Room 848
Indianapolis, Indiana 46204
317-232-5468

Robert Dirks, P.E., Project Manager
Indiana Division
Federal Highway Administration
575 North Pennsylvania, Room 254
Indianapolis, Indiana 46204
317-226-7492

This is a Tier 1 Final Environmental Impact Statement (EIS) for I-69 between Evansville and Indianapolis, Indiana. A series of alternatives have been analyzed for environmental, social, economic, and engineering concerns. The highway would be a freeway facility with interchanges providing the only access. The preferred alternative is Alternative 3C.

Comments on this Tier 1 Final EIS should be directed to Michael Grovak at Bernardin, Lochmueller & Associates, Inc., 6200 Vogel Road, Evansville, Indiana 47715. Comments may also be submitted through the I-69 project website at www.I69indyevn.org. Please refer to the project website or call the project toll free hot line at 887-463-9386 for the comment deadline.

Table of Contents

Volume I - Tier 1 Final Environmental Impact Statement

Summary

S.1	Introduction	S-1
S.2	Proposed Action	S-3
S.3	Process Overview - Tiering, Technical Tools, and Public Outreach.....	S-4
S.4	Scoping, Purpose and Need, and Preliminary Screening	S-16
S.5	Performance, Cost, and Environmental Impact Analysis	S-20
S.6	Major Post-DEIS Activities.....	S-30
S.7	Selection of Preferred Alternative	S-33
S.8	Federal Actions Associated with this Project	S-39
S.9	Other Major Governmental Actions in Study Area.....	S-40
S.10	Mitigation Measures	S-40
S.11	Issues Raised in Agency and Public Comments.....	S-41
S.12	Remaining Steps in Tier 1.....	S-43
S.13	Overview of Post-Tier 1 Activities.....	S-43
S.14	Glossary of Key Terms.....	S-46

Chapter 1 - Project History and Background

1.1	Previous Studies	1-1
1.2	Federal Legislation and Policies.....	1-7
1.3	Indiana Statewide and Metropolitan Plans	1-8
1.4	Current Environmental Impact Statement (Tier 1).....	1-9
1.5	Tier 2 NEPA Studies	1-11

Chapter 2 - Purpose and Need

2.1	Statement of Purpose and Need.....	2-1
2.2	Policy Framework.....	2-2
2.3	Needs Assessment.....	2-11
2.4	Public And Agency Input.....	2-43
2.5	Project Goals And Performance Measures.....	2-43

Chapter 3 - Alternatives

3.1	Process Overview.....	3-1
3.2	Level 1: Scoping and Development of Route Concepts.....	3-9
3.3	Level 2: Screening of Alternatives	3-16
3.4	Level 3: Detailed Performance and Cost Analysis of Alternatives.....	3-32
3.5	Tier 2 Sections.....	3-62
3.6	Further Analysis.....	3-62

Volume I - Tier 1 Final Environmental Impact Statement

Table of Contents, continued

Chapter 4 - Affected Environment

4.1	The GIS Approach	4-1
4.2	Natural Environment.....	4-3
4.3	The Human Environment.....	4-18
4.4	History of Southwest Indiana.....	4-26

Chapter 5 - Environmental Consequences

5.1	Methodology for Evaluating Environmental Impacts	5-1
5.2	Land Use Impacts.....	5-9
5.3	Social Impacts	5-23
5.4	Environmental Justice.....	5-41
5.5	Economic Impacts.....	5-47
5.6	Joint Development.....	5-51
5.7	Pedestrian and Bicyclist Impacts	5-53
5.8	Traffic Impacts	5-55
5.9	Air Quality Impacts	5-63
5.10	Highway Noise Impacts	5-73
5.11	Wild and Scenic Rivers.....	5-91
5.12	Construction Impacts.....	5-95
5.13	Historic and Archaeology Impacts	5-99
5.14	Mineral Resource Impacts	5-139
5.15	Visual and Aesthetic Impacts	5-145
5.16	Hazardous Waste Site Impacts.....	5-155
5.17	Threatened and Endangered Species Impacts	5-163
5.18	Floodplain Impacts.....	5-185
5.19	Wetland Impacts.....	5-189
5.20	Agricultural Impacts.....	5-199
5.21	Forest Impacts	5-221
5.22	Water Body Impacts.....	5-227
5.23	Ecosystem Impacts.....	5-233
5.24	Water Quality Impacts	5-259
5.25	Permits.....	5-273
5.26	Cumulative Impacts	5-279
5.27	Energy Impacts	5-297
5.28	Short-Term Uses vs. Long-Term Productivity	5-299
5.29	Irretrievable and Irreversible Resource Losses	5-301

Chapter 6 - Comparison of Alternatives

6.0	Introduction.....	6-3
6.1	Comparison of Alternatives Studied in DEIS.....	6-3

Volume I - Tier 1 Final Environmental Impact Statement

Table of Contents, continued

6.2	Selection of Preferred Alternatives in DEIS.....	6-17
6.3	Major Post-DEIS Activities.....	6-18
6.4	Selection of a Single Preferred Alternative	6-42
6.5	Description of Preferred Alternative	6-50

Chapter 7 - Mitigation and Commitments

7.1	Introduction	7-1
7.2	Major Initiatives	7-1
7.3	Mitigation and Commitments	7-8
7.4	Environmental Mitigation Costs.....	7-26

Chapter 8 - Section 4(f) Evaluation

8.1	Proposed Action	8-2
8.2	Section 4(f) Resources - Parks, Recreation Areas, and Wildlife or Waterfowl Refuges. 8-3	
8.3	Section 4(f) Resources - Historic and Archaeological Resources	8-28
8.4	Coordination.....	8-53
8.5	Section 6(f) Resources	8-53
8.6	Summary	8-54

Chapter 9 - List of Preparers

Chapter 10 - Distribution of EIS

Chapter 11 - Comments, Coordination and Public Involvement

11.1	Introduction.....	11-1
11.2	Summary of Major Comments and Responses.....	11-4
11.3	Public and Community Outreach.....	11-25
11.4	Agency Review and Coordination	11-32

Chapter 12 - References

Chapter 13 - Glossary, Acronyms, Index

13.1	Glossary of Terms	13-1
13.2	Acronyms	13-7
13.3	Index	13-9

Table of Contents

Volume II - Appendices

A	Transportation Performance Measures
B	Economic Development Performance Measures
C	National I-69 Performance Measures
D	Sensitivity Analysis and Screening Methodology
E	Typical Sections for Working Alignments
F	Agricultural Land Baseline and Trends
G	Forested Land Baseline and Trends
H	Wetlands Baseline and Trends
I	Federal and State Listed Species
J	Floodplain Impact Details
K	Air Quality Analysis
L	Noise Impact Analysis
M	Archaeology Analysis
N	Historic Properties Analysis
O	Route Concepts Screening Report
P	Section 106 Documents
Q	Direct and Indirect Impacts for Farmland, Forests and Wetlands
R	1998 303(d) List - Impaired Waterbodies
S	Hazardous Materials
T	Memorandum of Understanding, Wetlands
U	Memorandum of Understanding, Karst
V	Statewide Travel Demand Model Documentation
W	Economic Impacts Methodology
X	FHWA Tiering Memorandum
Y	Agency Coordination Materials
Z	FHWA Statements Regarding National I-69
AA	Impact Assessment of Crane Division of Naval Surface Warfare Center, Naval Sea Systems Command
BB	Tincher Special Area
CC	Analysis of Hybrid Alternatives
DD	Section 404(b)(1) Consistency Analysis
EE	Relationship between Interstates and Economic Development
FF	Technical Critique of Smart Mobility Report
GG	Corridor 18 and Connection to Bloomington
HH	Cost Estimating Report
II	Documentation on Variation Selection and Alignment Shifts
JJ	Change in Educational Access Measure
KK	INDOT Policies Concerning Tier 1 EIS
LL	Biological Opinion
MM	Conservation Measures for Section 7 Consultation Species [not included as separate document; see Appendix LL]
NN	Tier 1 Forest and Wetland Mitigation and Enhancement Plan
OO	IEDC I-69 Regional Economic Needs Analysis

Table of Contents, continued

Volume I List of Tables

Summary

S-1	Overall Methodology for Tier 1 and Tier 2	S-5
S-2	Environmental Analysis for Tier 1 and Tier 2	S-6
S-3	Public Outreach and Agency Coordination After Publication of the DEIS	S-14
S-4	Geographic Grouping of Alternatives	S-20
S-5	Screening and Consolidation of Route Concepts by Major Geographic Region Served	S-21
S-6	Alternatives Carried Forward for Level 3 Analysis	S-23
S-7	Performance of Alternatives on Project Goals	S-24
S-8	Costs (Construction, Engineering, Right-of-way) by Alternative	S-25
S-9	Summary of Key Performance Measures and Environmental Impacts	S-34
S-10	Preferred versus Non-Preferred Alternatives in DEIS	S-36
S-11	Major Mitigation Initiatives	S-41
S-12	I-69 Tier 2 Sections - Costs and Impacts by Section	S-44

Chapter 1 - Project History and Background

1-1	Overall Methodology for Tier 1 and Tier 2	1-11
1-2	Environmental Analysis for Tier 1 and Tier 2	1-12

Chapter 2 - Purpose and Need

2-1	Ranking of Cities by Average Mileage Difference and Mileage Index to Indianapolis, 1998 and 2025	2-14
2-2	Ranking of Cities by Average Travel Time Difference and Travel Time Index to Indianapolis, 1998 and 2025	2-15
2-3	Growth in Daily Forecasted VMT between 1998 and 2025 Vehicle Miles of Travel (VMT)	2-23
2-4	V/C by Functional Classification	2-24
2-5	Crash Rate Comparison, Rural Roads	2-27
2-5a	Study Area Net Migration, 1980 - 1998	2-30
2-5b	Population Trends, Indiana Small Counties (Year 2000 Population under 40,000) without Interstate Highways	2-32
2-5c	Population Trends, Indiana Small Counties (Year 2000 Population Under 40,000) with Interstate Highways	2-33
2-5d	Income Trends in Small Indiana Counties (Year 2000 Population Under 40,000) without an Interstate Highway	2-34
2-5e	Income Trends in Small Indiana Counties (Year 2000 Population Under 40,000) with an Interstate Highway	2-35
2-6	Study Area Counties with High Unemployment, 1990 - 2001	2-37

Table of Contents, continued

Volume I List of Tables

2-7	Effective Buying Income in Selected Study Area Counties	2-38
2-8	Poverty Rates in Selected Study Area Counties	2-38
2-9	Transportation Policies, Needs, Goals, and Performance Measures.....	2-47
2-10	Economic Development Policies, Needs, Goals, and Performance Measures	2-48
2-11	National I-69 Policies, Needs, Goals, and Performance Measures	2-49

Chapter 3 - Alternatives

3-1	Geographic Grouping of Route Concepts	3-17
3-2	Screening and Consolidation of Route Concepts by Major Geographic Region Served	3-19
3-3	Route Concepts Carried Forward as Alternatives for Level 3 Analysis	3-26
3-4	Travel Time Savings between Evansville and Indianapolis by Alternative (minutes)	3-37
3-5	Year 2025 Increase in Number of People within Given Proximity.....	3-38
3-6	Summary of Accessibility Increases.....	3-39
3-7	Summary of Study Area Congestion Performance Indicators, by Alternative....	3-41
3-8	Average Congestion Measure Performance, by Approach to Indianapolis.....	3-41
3-9	Summary of Forecasted Year 2025 Annual Crash Reductions, by Alternative...3-42	
3-10	Annual (Year 2025) Crash Reductions, by Group	3-43
3-11	Summary of Forecasted Year 2025 Increase in Business Accessibility, by Alternative	3-44
3-12	Annual (Year 2025) Increase in Business Accessibility, by Group	3-44
3-13	Alternative 1 Increases in Business Accessibility for Typical TAZ in Each Economic Region.....	3-46
3-14	Alternative 2A Increases in Business Accessibility Typical TAZ in Each Economic Region.....	3-46
3-15	Alternative 2B Increases in Business Accessibility Typical TAZ in Each Economic Region.....	3-46
3-16	Alternative 2C Increases in Business Accessibility Typical TAZ in Each Economic Region	3-46
3-17	Alternative 3A Increases in Business Accessibility Typical TAZ in Each Economic Region	3-47
3-18	Alternative 3B Increases in Business Accessibility Typical TAZ in Each Economic Region	3-47
3-19	Alternative 3C Increases in Business Accessibility Typical TAZ in Each Economic Region	3-47
3-20	Alternative 4A Increases in Business Accessibility Typical TAZ in Each Economic Region	3-47
3-21	Alternative 4B Increases in Business Accessibility Typical TAZ in Each Economic Region	3-48

Table of Contents, continued

Volume I List of Tables

3-22	Alternative 4C Increases in Business Accessibility Typical TAZ in Each Economic Region	3-48
3-23	Alternative 5A Increases in Business Accessibility Typical TAZ in Each Economic Region	3-48
3-24	Alternative 5B Increases in Business Accessibility Typical TAZ in Each Economic Region	3-48
3-24a	Annual (Year 2025) Increase in Access, SR 37 Alternatives (2C, 3B, 3C, 4C, 5B).....	3-49
3-24b	Annual (Year 2025) Increase in Access, I-70 Alternatives (1, 2A, 2B, 3A, 4A, 4B, 5A).....	3-49
3-25	Summary of Forecasted Year 2025 Long-Term Study Area Economic Growth	3-50
3-26	Grouping of Alternatives by Performance in Long-Term Economic Growth Indicators	3-51
3-26a	Year 2025 Economic Performance by Alternative - Indianapolis Region	3-52
3-26b	Year 2025 Economic Performance by Alternative - Bloomington Region	3-52
3-26c	Year 2025 Economic Performance by Alternative - Terre Haute Region	3-53
3-26d	Year 2025 Economic Performance by Route - Evansville Region.....	3-52
3-26e	Year 2025 Economic Performance by Alternative - Rural Southwest Indiana Region.....	3-53
3-27	Grouping of Alternatives by Performance in Economic Development Spectrum Indicators.....	3-54
3-28	Summary of Forecast Year 2025 Economic Development Spectrum Performance Indicators, by Alternative	3-55
3-29	Summary of Forecast Year 2025 I-69 Freight Movement Performance Indicator, by Alternative	3-56
3-30	Daily (Year 2025) Truck Hours Saved, by Group.....	3-56
3-31	Summary of Forecast Year 2025 Improvement in Accessibility Index to Intermodal Facilities	3-56
3-32	Grouping of Alternatives by Performance in Intermodal Accessibility Index Increase	3-57
3-33	Cost (Construction, Engineer, Right-of-Way) and Mileage Estimates of Alternatives	3-58
3-33a	Mitigation Costs.....	3-58
3-34	Annual O & M cost Increases, Alternatives Carried Forward for Detailed Study.....	3-59
3-34a	Cost Estimates Using Different Assumption - Assumes I-70 Added Travel Lanes Are Not Committed, and that SR 37 Capacity Improvements Are Committed	3-60
3-35	Performance of Alternatives on Project Goals.....	3-61
3-36	Tier 2 Sections - Alternatives 1, 2A, 2B, 2C.....	3-63

Table of Contents, continued

Volume I List of Tables

3-37	Tier 2 Sections - Alternatives 3A, 3B, 3C, 4A, 4B, 4C	3-64
3-38	Tier 2 Sections - Alternatives 5A, 5B	3-65

Chapter 4 - Affected Environment

4-1	Percentages of Proposed I-69 Alternatives in Physiographic Regions and Natural Region Sections.....	4-11
4-2	Population Growth in Study Area, State of Indiana, and United States	4-18
4-3	Populations of Cities and Towns in the I-69 Study Area	4-18
4-4	Age Distribution.....	4-19
4-5	Race and Ethnicity Distribution in 2000	4-20
4-6	Household	4-20
4-7	Education	4-20
4-8	Employment Growth in Study Area, Indiana, and United States	4-21
4-9	Number of Jobs by Industry, with Percent of Total Employment in 1980, 1998, and 2025	4-21
4-10	Comparison of Per Capita Income, Study Area and Rest of Indiana.....	4-22

Chapter 5 - Environmental Consequences

5.2-1	Direct Land Use Impacts for Each Alternative.....	5-14
5.2-2	Indirect Land Use Impacts for Each Alternative	5-15
5.3-1	Relocation Estimates Alternative 1	5-26
5.3-2	Relocation Estimates Alternative 2A.....	5-27
5.3-3	Relocation Estimates Alternative 2B	5-27
5.3-4	Relocation Estimates Alternative 2C	5-28
5.3-5	Relocation Estimates Alternative 3A	5-29
5.3-6	Relocation Estimates Alternative 3B	5-30
5.3-7	Relocation Estimates Alternative 3C	5-31
5.3-8	Relocation Estimates Alternative 4A	5-32
5.3-9	Relocation Estimates Alternative 4B	5-32
5.3-10	Relocation Estimates Alternative 4C	5-32
5.3-11	Relocation Estimates Alternative 5A	5-33
5.3-12	Relocation Estimates Alternative 5B	5-33
5.3-13	Available Housing	5-38
5.3-14	Total Relocations for each Alternative.....	5-39
5.3-15	Total Right-of-Way Acquisition Costs for each Alternative.....	5-39
5.5-1	Range of Impacts on Nearby Roadside Business Sales	5-49
5.5-2	Estimated Impacts on Remote Roadside Business Sales	5-50
5.8-1	Year 2025 Percentage Change in Vehicle-Miles of Travel on Major Corridors...5-59	
5.9-1	Marion County Air Quality Analysis	

Table of Contents, continued

Volume I List of Tables

	(revised for SR 37 alignment changes for 2C, 3B, 3C, 4C, and 5B)	5-68
5.9-2	Vanderburgh County Air Quality Analysis	5-68
5.10-1	FHWA Noise Abatement Criteria	5-74
5.10-2	Rural Ambient Noise Measurements for I-69 Tier 1 EIS Analysis.....	5-76
5.10-3	Potential Highway Noise Related Impacts along Tier 1 Alternative (excludes single family residential)	5-79
5.10-4	Summary of Potential Highway Noise Related Impacts for I-69 Tier 1 Alternatives	5-80
5.10-5	Potential Residential Sites of Noise Barrier Consideration along Tier 1 EIS Alternatives.....	5-88
5.12-1	Annual Construction-Related User Costs, by Alternative	5-97
5.13-1	Listed and Potentially Eligible Historic Districts in the Corridor.....	5-114
5.13-2	Listed and Potentially Eligible Historic Properties in the Corridor	5-117
5.13-3	Listed and Potentially Eligible Historic Properties and Districts in the Corridor and APE.....	5-126
5.13-4	Previously recorded archaeological sites in the APE.....	5-130
5.13-5	Previously recorded archaeological sites in the Corridors	5-130
5.13-6	Potential for Prehistoric Archaeological Site	5-133
5.13-7	Potential for Historic Archaeological Sites	5-134
5.14-1	Description of Mineral Resources (Linear Miles Crossed)	5-139
5.16-1	Hazardous Waste Site Impact Comparison.....	5-157
5-17-1	Summary of NEPA and Section 7 consultation History for I-69.....	5-170
5-17-2	Recent Records (post-1973) of State Listed Animals and Plants within 1 mile of the centerline for the I-69 Alternatives	5-181
5.18-1	Potential Floodplain Impacts	5-186
5.19-1	Comparison of Alternatives for Wetland Acres	5-197
5.20-1	Agricultural Harvest and Production Statistics for I-69 Tier 1 Counties.....	5-205
5.20-2	Average Crop Sales Prices for Indiana.....	5-206
5.20-3	Average Crop Cash Receipts for Counties Crossed by I-69 Tier 1 Alternatives..	5-207
5.20-4	Percent of Annual Crop Cash Receipt Loss for I-69 Tier 1 Alternatives.....	5-208
5.20-5	Summary of Farmland Impacts for I-69 Tier 1 Study Alternatives.....	5-209
5.20-6	Agricultural Crop Production Loss Estimates for Alternative 1	5-211
5.20-7	Agricultural Crop Production Loss Estimates Alternatives 2A, 2B, and 2C.....	5-212
5.20-8	Agricultural Crop Production Loss Estimates for Alternatives 3A, 3B, and 3C	5-214
5.20-9	Agricultural Crop Production Loss Estimates for Alternatives 4A, 4B, and 4C	5-216
5.20-10	Agricultural Crop Production Loss Estimates Alternatives 5A and 5B	5-218
5.21-1	Impacts to Forests Due to the Proposed I-69 Project By Forest Survey Unit and County.....	5-223

Table of Contents, continued

Volume I List of Tables

5.22-1	Number of Water Body Crossings	5-228
5.23-1	Sinkhole Areas/Sinking Stream Basins Glaciated vs. Unglaciated Terrain	5-237
5.23-2	Natural Environmentally Sensitive Areas and Efforts to Avoid, Minimize, or Mitigate Impacts	5-249
5.23-3	Significant, Ecological, and Protected Properties from IDNR in the vicinity of the I-69 Alternatives	5-254
5.24-1	Comparison of Alternatives for potential water quality impacts	5-261
5.24-2	Summary of 1998 IDEM Impaired Streams Crossed by I-69 Alternatives	5-262
5.24-3	Mean Pollutant Concentrations in Runoff from Rural Highways with ADT less than 30,000	5-267
5.26-1	Estimated Impacts for an Additional Lane on I-70 from SR 641 to SR 267	5-286
5.26-2	Forecasted 2025 Farmland Acreage for Southwest Indiana	5-291
5.26-3	Estimated 2025 Forest Acreage for Southwest Indiana	5-293
5.26-4	Estimated 2025 Wetland Acreage for Southwest Indiana	5-294
5.27-1	Gallons of fuel Consumed in Excess of the No Build Alternative in 2025 by Build Alternatives	5-297

Chapter 6 - Comparison of Alternatives

6-1	Summary of Key Performance Measures and Environmental Impacts	6-1
6-2	Selection of Preferred Alternatives in DEIS	6-17
6-2a	Inter-City Travel Data	6-20
6-3	Typical 2025 Travel Time Savings Between Bloomington and Crane	6-20
6-4	Typical 2025 Travel Time Savings Between Bloomington and Evansville	6-20
6-5	Typical 2025 Travel Time Savings Between Bloomington and Indianapolis	6-20
6-6	Typical 2025 Travel Time Savings Between Bloomington and Terre Haute	6-21
6-7	Typical 2025 Travel Time Savings Between Bloomington and Vincennes	6-21
6-8	Typical 2025 Travel Time Savings Between Crane and Evansville	6-21
6-9	Typical 2025 Travel Time Savings Between Crane and Indianapolis	6-21
6-10	Typical 2025 Travel Time Savings Between Crane and Terre Haute	6-21
6-11	Typical 2025 Travel Time Savings Between Crane and Vincennes	6-21
6-12	Typical 2025 Travel Time Savings Between Evansville and Indianapolis	6-22
6-13	Typical 2025 Travel Time Savings Between Evansville and Terre Haute	6-22
6-14	Typical 2025 Travel Time Savings Between Evansville and Vincennes	6-22
6-15	Typical 2025 Travel Time Savings Between Indianapolis and Terre Haute	6-22
6-16	Typical 2025 Travel Time Savings Between Indianapolis and Vincennes	6-22
6-17	Typical 2025 Travel Time Savings Between Terre Haute and Vincennes	6-22
6-18	Additional Access Opportunities to Major Higher Educational Institutions	6-24
6-19	Annual Increases in Personal Income (Millions of Dollars) in 2025 by Region and Alternatives	6-25
6-20	Summary of Selected Impacts for the 4 Washington Variations	6-31

Table of Contents, continued

Volume I List of Tables

6-21	Impacts of SR 37 and Mann Road Variations	6-33
6-22	Impacts for the Prides Creek Shift	6-35
6-23	Impacts for the Combs Unit Shift	6-37
6-24	Impacts for the Virginia Iron Works Shift	6-40
6-25	Updated Wetlands Impacts by Alternative	6-41
6-26	I-69 Preferred Alternative 3C - Tier 2 Section 1 (From I-64 near Evansville to SR 64 near Princeton/Oakland City) - Impact Summary	6-53
6-27	I-69 Preferred Alternative 3C - Tier 2 Section 2 (From SR 64 near Princeton/Oakland City to US 50 near Washington) - Impact Summary	6-55
6-28	I-69 Preferred Alternative 3C - Tier 2 Section 3 (From US 50 near Washington to US 231 near Crane NWSC) - Impact Summary	6-56
6-29	I-69 Preferred Alternative 3C - Tier 2 Section 4 (From US 231 near Crane NWSC to SR 37 south of Bloomington) - Impact Summary	6-60
6-30	I-69 Preferred Alternative 3C - Tier 2 Section 5 (From SR 37 south of Bloomington via SR 37 to SR 39 at Martinsville) - Impact Summary	6-62
6-31	I-69 Preferred Alternative 3C - Tier 2 Section 6 (From SR 39 south of Martinsville via SR 37 to I-465 at Indianapolis) - Impact Summary	6-64
6-32	I-69 Tier 2 Sections - Cost and Impacts by Section	6-66

Chapter 7 - Mitigation and Commitments

7-1	Major Initiatives	7-2
7-2	Mitigation Costs	7-27

Chapter 8 - Section 4(f) Evaluation

8-1	Summary of Section 4(f) Analysis For Parks, Recreation Areas, and Refuges...	8-24
8-2	Listed and Potentially Eligible Individual Historic Properties within Corridor ..	8-37
8-2a	Detailed Information on Listed and Potentially Eligible Individual Historic Properties within the Corridor	8-37
8-3	Previously recorded archaeological sites in the Study Corridors	8-52
8-4	Potential for Prehistoric Archaeological Sites	8-52

Chapter 11 - Comments, Coordination, and Public Involvement

11.1-1	Public Outreach and Agency Coordination After to Publication of DEIS	11-2

	Transportation Planning Purposes	1-9
1-13	Indiana’s Commerce Corridors	1-9
1-14	Statewide Planning Corridors	1-10

Chapter 2 - Purpose and Need

2-1	Indiana’s National Highway System Routes	2-4
2-2	National I-69 Corridor	2-2
2-3	INDOT 2001 Plan - Planning Corridor Hierarchy	2-9
2-4	Indiana Counties Designated as Economic Centers for Transportation Planning Purposes	2-10
2-5	Indiana’s Commerce Corridors	2-11
2-6	I-69 Modeled Area	2-12
2-7	Study Area	2-13
2-8	Calculation of Time and Mileage Linkage Indexes	2-15
2-9	Difference Between Actual and Straight-line Mileage from Key Cities to Indianapolis	2-15
2-10	Difference Between Actual and Straight-line Travel Times from Key Cities to Indianapolis	2-16
2-11	Example Index-Employment	2-17
2-12	Indiana Accessibility to Population Centers	2-19
2-13	Indiana Accessibility to Employment	2-20
2-14	Indiana Accessibility to Urban Areas	2-20
2-15	Indiana Accessibility to Major Airports	2-21
2-16	Indiana Accessibility to Institutions of Higher Education	2-21
2-17	Indiana Accessibility to Indianapolis	2-22
2-18	Comparison of Study Area and Statewide V/C Ratios	2-24
2-19	Major Highways with High Levels of Congestion forecasted in “No Build” Case, 2025	2-25
2-20	Study Area Counties with High County-Wide Crash Rates	2-27
2-21	Stressed Counties in Southwest Indiana, 2002	2-28
2-22	Percentage Changes in Population, 1960-2000	2-29
2-22a	Study Area Net Migration By County From 1980-1998 As a Percentage of 1980 Population	2-31
2-22b	Study Area Net Migration by County 1980-1998	2-31
2-23	Percentage Changes in Employment, 1974-2000	2-37

Chapter 3 - Alternatives

3-1	Tiering Process and Tier 1 Activities	3-5
3-2	Route Concepts	3-10
3-3	Individual Route Concept Maps	3-13

Table of Contents, continued

Volume I List of Figures

3-4	Alternatives Carried Forward for Detailed Study	3-28
3-5	Individual Maps of Five Alternatives Carried Forward for Detailed Study	3-29
3-6	Illustration of a Study Band, Corridor and Working Alignment	3-31
3-6a	Alternative Variations	3-33
3-7	Induced Land Use Change - Feedback Loop in Travel Model.....	3-35
3-8	Travel Time Savings by Alternative.....	3-38
3-9	Additional People Within One Hour of Indianapolis (Year 2025).....	3-39
3-10	Additional People Within Two Hours of Indianapolis (Year 2025)	3-39
3-11	Additional People Within Three Hours of Indianapolis (Year 2025).....	3-40
3-12	Additional People Within One Hour of Major Educational Institution (Year 2025)	3-40
3-13	Additional People Within Thirty Minutes of Major Urban Area (Year 2025)....	3-40
3-14	Reduction in Injury Crashes (Year 2025)	3-42
3-15	Reduction in Property Damage Only Crashes (Year 2025)	3-42
3-16	Increase in Business Accessibility to Labor and Consumer Markets (Year 2025)	3-45
3-17	Increase in Business Access to Buyer and Supplier Markets (Year 2025).....	3-45
3-18	Economic Regions	3-45
3-19	Increase in Study Area Disposable Income (Year 2025)	3-51
3-20	Increase in Study Area Employment (Year 2025)	3-51
3-21	Increase in Study Area Employment in High Growth Industries (Year 2025)....	3-51
3-22	Increase in Study Area Employment in High Wage Industries (Year 2025)	3-51
3-23	Increase in Study Area Young Working Age Population (Year 2025).....	3-54
3-24	Decrease in Study Area Transfer Payment Per Capita (Year 2025).....	3-54
3-25	Daily truck Hours Saved (2025).....	3-56
3-26	Increase in Accessibility Index to Intermodal Centers (Year 2025)	3-57
3-27	Average Cost Estimate of Alternatives	3-59

Chapter 4 - Affected Environment

4-1	Examples of GIS Data Layers	4-2
4-2	Physiographic Regions of the I-69 Study Area (Gray, 2000).....	4-3
4-3	Glaciated Land in the Proposed I-69 Study Area (Gray, 1971).....	4-4
4-4	Cropland in the Wabash Lowland	4-4
4-5	The Crawford Upland (Regionva, 1971)	4-5
4-6	Typical topography of the Mitchell Plateau	4-5
4-7	Natural Region Sections of the I-69 Study Area (Homoya et al., 1985)	4-6
4-8	East Fork of the White River in the Southern Bottomlands	4-7
4-9	Typical topography in the Glaciated Section	4-7
4-10	Cropland in the Plainville Sand Section	4-8
4-11	Rock springs in the Crawford Upland.....	4-9

Table of Contents, continued

4-12	Forest Survey Units and Proposed I-69 Alternatives	4-12
4-13	Martin State Forest, Forestland in the Knobs Unit	4-13
4-14	Farmland within the Wabash Lowland	4-13
4-15	Wetland near Patoka River	4-14
4-16	Seismic Zones and Proposed I-69 Alternatives in Southwestern Indiana	4-17
4-17	Population Density from 2000 Census Tracts	4-19
4-18	Major Facilities and Managed Lands	4-24

Chapter 5 - Environmental Consequences

5.1-1	Illustration of Study Band Corridor and Working Alignment	5-2
5.1-2	Alternatives Carried Forward for Environmental Analyses	5-7
5.2-1	Counties with Comprehensive Plans within the Study Area	5-10
5.2-1a	Johnson County Comprehensive Plan	5-11
5.2-1b	Perry Township Comprehensive Land Use Plan	5-12
5.2-1c	Monroe County Comprehensive Land Use Plan	5-13
5.2-1d	Warrick County Land Use Plan	5-14
5.2-2	Direct Land Use Impacts for Each Alternative	5-15
5.2-3	Indirect Land Use Impacts for Each Alternative	5-16
5.3-1	1998 Aerial of SR 37 from Southport Road to I-465	5-35
5.3-2	2003 Aerial of SR 37 from Southport Road to I-465	5-35
5.3-3	1998 Aerial of SR 37 from County Line Road to Southport Road	5-35
5.3-4	2003 Aerial of SR 37 from County Line Road to Southport Road	5-35
5.3-5	1998 Aerial of SR 37 from SR 144 to County Line Road	5-36
5.3-6	2003 Aerial of SR 37 from SR 144 to County Line Road	5-36
5.3-7	High Relocation Areas	5-40
5.4-1	Percentage of Black Populations by Census Block Group, 2000 Census	5-43
5.4-2	Percentage of Hispanic Populations by Census Block Group, 2000 Census	5-43
5.4-3	Percentage of Asian Populations by Census Block Group, 2000 Census	5-44
5.4-4	Percentage of American Indian and Alaskan Native Populations by Census Block Group, 2000 Census	5-44
5.4-5	Percentage of Hawaiian or Pacific Islander Populations by Census Block Group, 2000 Census	5-44
5.4-6	Percentage of a Population in Poverty by Block Group	5-45
5.6-1	Henderson to Evansville I-69 Study	5-51
5.7-1	Martin State forest Mountain Bike Trail	5-54
5.7-2	Bloomington Rail Trail	5-54
5.10-1	Example of preliminary noise impact zone along SR 37 through southern part of Martinsville used for I-69 Tier 1 EIS Analysis	5-76
5.10-2	Summary of Potential Highway Noise Related Impacts for I-69 Tier 1 Alternatives	5-78

Table of Contents, continued

Volume I List of Figures

5.10-3	North Central High School on US 41 between Shelburn and Farmersburg, Sullivan County	5-80
5.10-4	New Vision RV park along US 41 at Oaktown, Knox County	5-80
5.10-5	Shelburn Community Park along US 41 at Shelburn, Sullivan County.....	5-81
5.10-6	New subdivisions under construction at Southern Dunes community west of SR 37, southern Marion County	5-81
5.10-7	First Baptist Church along US 41 in Vincennes, Knox County	5-82
5.10-8	Martinsville County Club along SR 37 north of a Martinsville, Morgan County	5-82
5.10-9	Pine Apartments along SR 37 at Martinsville, Morgan County	5-82
5.10-10	Martinsville High School along SR 37, Morgan County	5-83
5.10-11	Lighthouse Landing Apartments, Mrion County	5-83
5.10-12	Super 8 Motel along SR 37 at Martinsville, Morgan County	5-84
5.10-13	Grandview Convalescent Center along SR 37 at Martinsville, Morgan County	5-85
5.11-1	West Fork of the White River (SR 67 Crossing)	5-92
5.11-2	East Fork of the White River (SR 57 Crossing)	5-92
5.11-3	National Park Service Nationwide Rivers Inventory River Segments and Proposed I-69 Alternatives.....	5-92
5.12-1	Sedimentation Basin BMP on Roadway Construction Project	5-96
5.12-2	Typical Traffic Impacts	5-97
5.13-1	Potential and Listed Historic Districts	5-108
5.13-2	Amish Area and Old Order Amish/Mennonite Areas	5-111
5.13-3	Patoka Bridges Historic Resources	5-116
5.13-4	Potentially Eligible Properties in the Corridor of Alternative 1	5-120
5.13-5	Potentially Eligible Properties in the corridor of Alternative 2A, 2B, and 2C	5-121
5.13-6	Potentially Elible Properties in the Corridor of Alternative 3A, 3B, and 3C	5-122
5.13-7	Potentially Eligible Properties in the Corridor of Alternative 4A, 4B, and 4C Elible Properties in the Corridor of Alternative 3A, 3B, and 3C	5-123
5.13-8	Potentially Eligible Properties in the Corridor of Alternative 5A and 5B	5-124
5.13-9	Virginia Iron Works and Alternatives 3A, 3B, and 3C	5-127
5.13-10	Pyramid Mound and Alternatives 1, 2A, 2B, and 2C	5-128
5.13-11	Potential for Prehistoric Archaeological Sites - % High	5-133
5.13-12	Potential for Historic Archaeological Sites - % High	5-135
5.14-1	Surface coal mining	5-139
5.14-2	Coal Availability Springfield.....	5-140
5.14-3	Coal Availability Danville.....	5-140
5.14-4	Sand & Gravel Potential Southwest	5-140
5.14-5	Petroleum Reserves Southwest	5-140
5.14-6	Limestone Potential Southwest	5-141
5.14-7	Clay, Shale, and Gypsum Potential Industrial Minerals Southwest.....	5-141
